Dear John:

Per our discussion at the May 12, 1993 meeting, I have reviewed the question of whether the stay on permit condition IV.A.3. effects condition IV.A.4., which was not stayed. After review, I believe that the stay on IV.A.3. does not extend to IV.A.4. Thus, BEI should have requested an extension from Ecology.

If you have any additional questions, please don't hesitate to call.

Very truly yours,
